***At Wide Open Throttle * * Factory Recommendation Cummins ...**

STOCK INLET One look at the stock air inlet casting on the Cummins B engine is all it takes to realize that some serious deficiencies exist The diagonal orientation of the Cummins intake ports make torturous pathways for airflow The stock air inlet casting is an engineering compromise Air enters the cylinder head at one point only, favoring the center of the cylinder head The result is

Service Bulletin Cummins® Engine Oil and Oil Analysis ...

Cummins Inc recommends engine oil with a normal ash content of 08 to 15 percent mass Oils with higher ash contents, up to 185 percent mass, can be used in areas where the sulfur content of the fuel is over 05 percent mass Limiting ash content is critical to prevention of valve and piston deposit formation See to Fuels for Cummins® Engines, Bulletin Number 3379001, for more information
